Release date : 25 September 2019

## UK Finance: Household Finance Update for August 2019

### Key data highlights:

- Gross mortgage lending across the residential market in August 2019 was £24 billion, 3.2 per cent lower than in the same month in 2018 (see chart 2).
- There were 85,931 mortgages approved by the main high street banks in August 2019. Mortgage approvals for home purchase were 3.2 per cent higher, remortgage approvals were 0.1 per cent higher and approvals for other secured borrowing were 0.4 per cent lower than in the same month a year earlier (see chart 3).
- The £11.0 billion of credit card spending in August 2019 was one per cent higher than in August 2018 (see chart 4). Repayments have remained in line with credit card spending, showing that consumers are managing their finances effectively overall. The level of credit card borrowing grew by 3.3 per cent in the year to August 2019.
- Personal borrowing through loans in August 2019 was 4.5 per cent higher than in the same month a year earlier (see chart 5). Overdraft borrowing was 1.2 per cent higher in August 2019 than in the same month a year earlier, while the longer-term trend has seen overdraft borrowing decline.
- Personal deposits grew by 1.4 per cent in the year to August 2019. Three-quarters of deposits were held in immediate access accounts in August 2019, in line with the same period last year (see chart 7).

Data included in this update relate to business conducted with the banking groups of Barclays, Lloyds, HSBC, RBS, Santander UK, TSB and Virgin Money, other than for gross mortgage lending, see below.

Gross mortgage lending reflects the total value of newly advanced loans secured on dwellings by all mortgage lenders and is estimated for the latest month by UK Finance - earlier figures and other references to full market data (ie all banks and building societies) are sourced from the Bank of England but are not yet published for the latest month.

Annual growth rates are adjusted to exclude the effects of population changes, write-offs and sales/purchases of loan books, to reflect underlying business trends where appropriate and are based on seasonally adjusted data, while all other data series are non-seasonally adjusted.

Total consumer credit and non-card consumer credit growth rates have revised in March 2018 to show the estimated underlying growth in on-going business, after reflecting a group restructure of balance sheet allocation of personal lending.

Year-on-year percentage changes compare the latest month's figure with the same month's figure in the previous year.

Extended data tables are available from our website [www.ukfinance.org.uk/statistics/](http://www.ukfinance.org.uk/statistics/)
