

Compliance & Corporate Social Responsibility

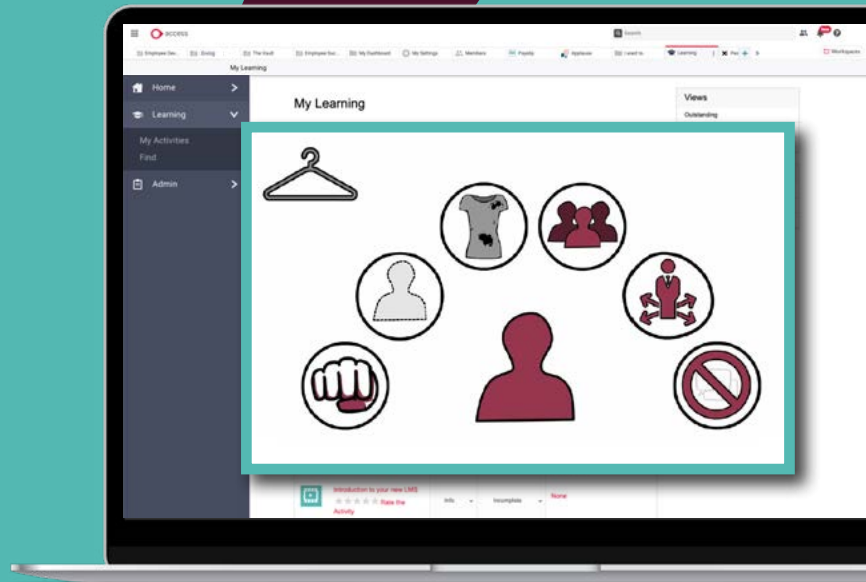

These eLearning courses are designed to equip staff with the knowledge and necessary skills to confidently navigate a range of essential business areas.

Train your staff with business-critical risk and compliance training using any of our 70+ eLearning courses. Our successful micro learn style also boasts a broad range of eLearning courses for you to choose from. Whether it be stand-alone or refreshers, to in-depth technical training, you can pick what method of learning suits your business needs and the needs of your employees.

Our content enables you to provide the appropriate training for your workforce, allowing them to conduct their role safely and effectively, ensuring your organisation keeps them safe and compliant.

All of our content is designed to address the following areas that cover the depth and breadth of a workforce:

- ✓ **Business Compliance**
- ✓ **Information Security**
- ✓ **Diversity & Inclusion**
- ✓ **Environmental**

Our eLearning courses come with mobile-friendly content to allow your employees to learn anywhere, and end-of-course assessments to check the comprehension of training. Using our industry-leading learning design and development tools and techniques, from interactivity to video interviews, we equip your teams, whether they be in remote, office or hybrid locations, with the knowledge and skills to be compliant.
