Next release date: May 20th 2024

- 2 UK Finance is the collective voice for the banking and finance industry. Representing more than 250 firms across the industry, we act to enhance competitiveness, support customers and facilitate innovation.
- 3 A RIO (Retirement Interest Only) mortgage is an Interest Only mortgage that allows borrowers to pay just the monthly amounts of interest throughout the term until either the death of the last remaining borrower or when the last remaining borrower moves into long-term care. When one of these events occurs the mortgage ends and the amount outstanding must be repaid in full.

 4. Lifetime Mortgages The key difference with this product compared to a standard mortgage or a RIO is that monthly payments are not required. The mortgage is repayable upon death of the last remaining borrower moves into long term care. Where no monthly payments are made, the interest accures over the lifetime of the mortgage, meaning the amount borrowers owe at the end of the mortgage will be more than the amount they borrowerd. However, many lenders will allow borrowers to make full or partial interest payments either on a monthly or ad-hoc basis.
- 5 The term older borrowers is defined as the main borrowers being above 55 years old
